## **Longman language activator: the world's first production dictionary** <sup>[1]</sup>

Submitted by ron\_moe

Title	Longman language activator: the world's first production dictionary
Publication Type	Book
Year of Publication	1993
Authors	<a href="#">Summers D</a> <sup>[2]</sup>
Publisher	Longman Pub Group
Keywords	<a href="#">English</a> <sup>[3]</sup>
Notes	<p>&lt;p&gt;This is by far the largest and best developed classified dictionary of English that I am aware of. Unfortunately it does not include domains for concrete objects. I generally agree with its classification of English words, and have found its groupings and definitions very helpful. I have relied on it more than any other work. I highly recommend buying a copy of this book as an excellent example of a classified dictionary. It is designed as a tool for advanced learners of English. It has 1052 domains.&lt;/p&gt;</p>
